ITS Texas Board Member Spotlight, featuring... President - Lester Miyasaki!

Lester Miyasaki is the Director of Sales for WTI. He is also the current President of ITS Texas. He was elected to the board in 2016. He has been with WTI since 2008. Prior to WTI, he worked for many years in the cellular industry. He also spent time working at a startup company that manufactured real-time hand held traffic devices.

Lester is a lifelong Southern California resident. He earned his Bachelor's Degree in Psychology from San Diego State University. His first job out of college was with Control Data Business Centers as a customer service / account representative. This started his 50+ year career in sales. In 2009, he started demonstrating WTI's Sidewinder camera to all the TXDOT districts. He very much enjoyed working with the Texas transportation industry and professionals. It's from this positive experience he wanted to do more than just sell. He wanted to serve the Texas ITS industry. He ran for the Board of Directors and was elected at the 2016 Annual Meeting. He has served on the board faithfully and is the current President of ITS Texas.

He has 2 sons, Michael and Weston. Both are living very productive lives in Northern California. He loves the game of baseball, is a lifelong Dodgers fan, enjoys playing pickle ball and most of all spending time with his wife Jana and dog Gordy. He is retiring at the end of November of this year and is very excited about the next chapter of his life.
